

askLNU

The goal of the project is to provide a platform for asking questions on some studying materials and receiving answers to them. System allows to create a question in the chosen faculty, add tags, reply to created ones and mark the answers and questions based on how helpful they were.

Roles: Guest, User, Moderator, Admin.

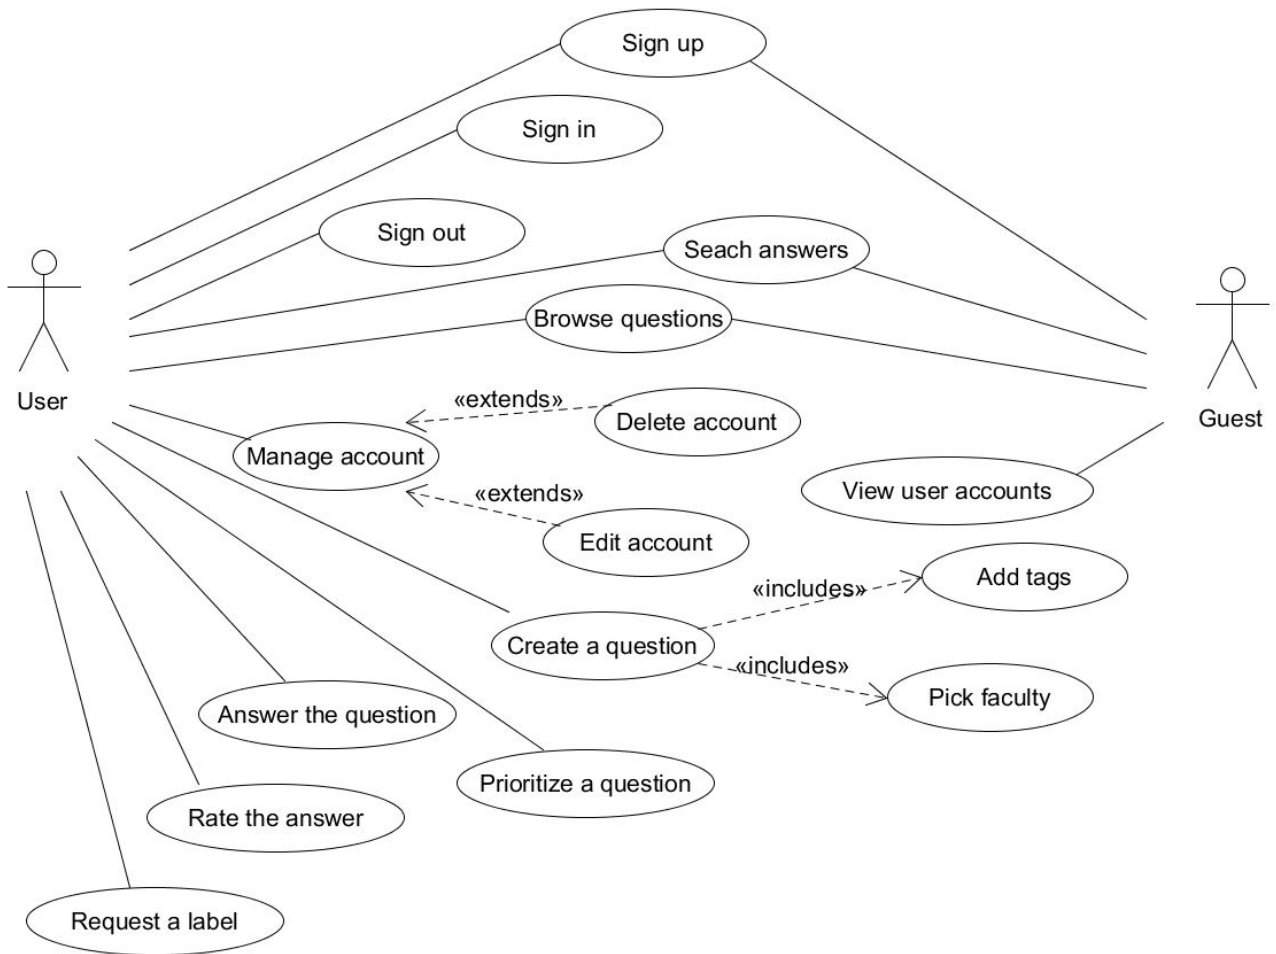

Role	Description
Guest	User that isn't logged in. Can sign up and sign in, view questions and answers, view user accounts.
User	Can create a question, pick a faculty and add tags, search questions, answer them, rate answers and questions. Also can get and change info in his/her account and delete his/her account.
Moderator	View info about users and questions, block/unblock users, delete questions and answers.
Admin	Can give/remove moderator rights, add/remove faculties, add/remove tags.

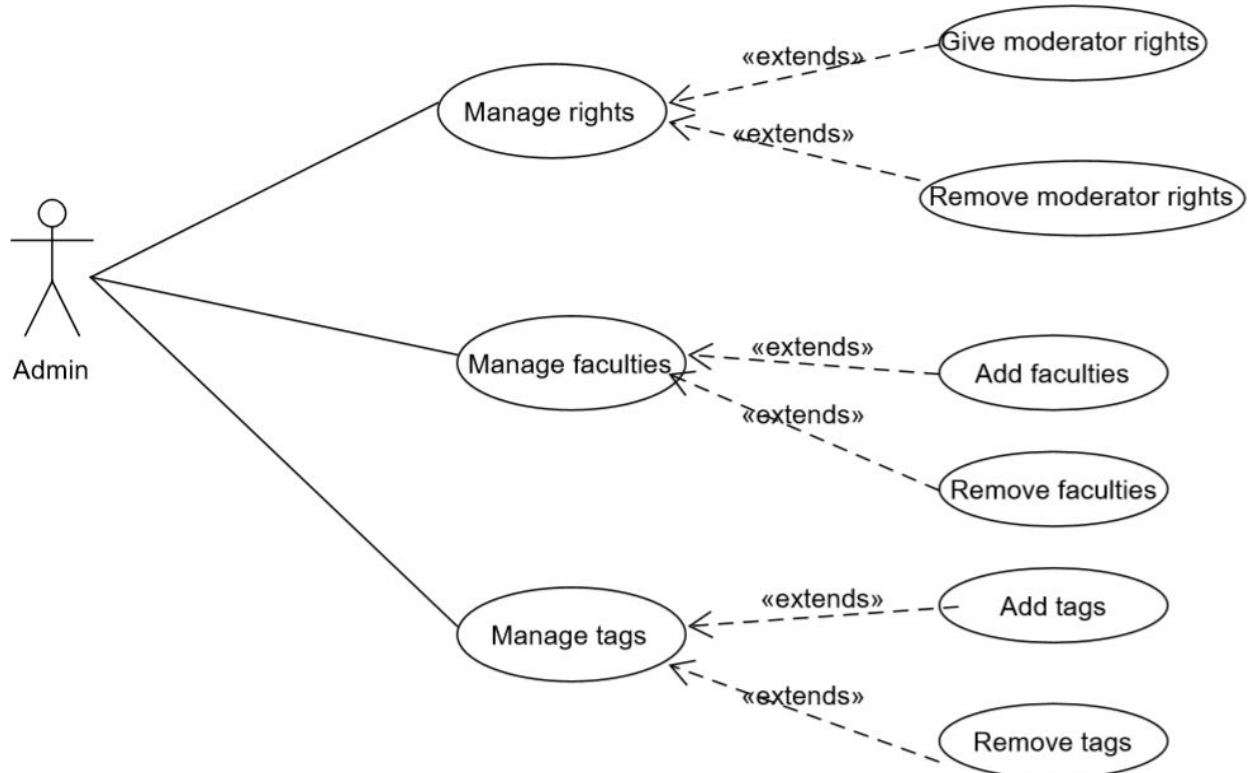

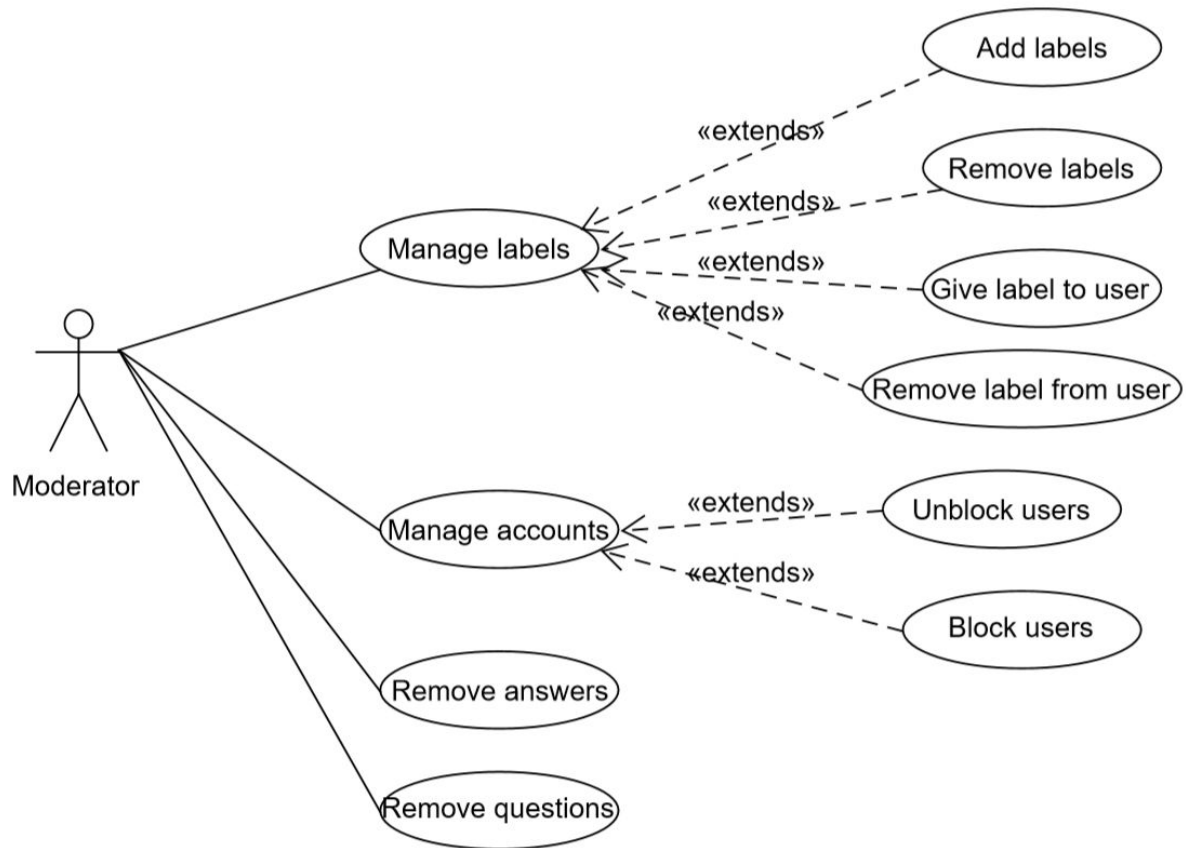

askLNU System
